Re: Singapore laboratory BSL-2 renewal certificate

The current Singapore laboratory BSL-2 certificate was valid till 19 May 2024. Per proceeding, final certificate will only be issued after the BSL-2 certifier vendor had completed the laboratory inspection and followed by reviewed inspection report.

Due to a delay in the arrangement and scheduling of the inspection with the vendor auditors, the lab inspection was scheduled on 23 May 2024.

Vendor has expedited the audit report so the certification can be issued as soon as possible once audit report is reviewed with corrective actions completion by Singapore EHS.

An internal impact assessment has been performed and none has been identified to the operations. Both audit report and certificate are received on 28 May 2024.
